# Europeanization and Territorial Politics in Small European Unitary States

A Comparative Analysis

Edited by **Sandrina Antunes** and **John Loughlin**

The book addresses the impact of the European Union (EU) on subnational mobilization in small unitary states. By means of a comparative analysis of eight small unitary states in Europe, this book shows that the impact of the EU on subnational mobilization is filtered through domestic mediating factors which can lead to three possible outcomes: decentralization, recentralization or no change.

The chapters in this book were originally published as a special issue of the journal, *Regional & Federal Studies*.
